2003

Project Description & Firm's Responsibility

We were contracted by an architectural firm to provide engineering services for the design of civil site improvements for a commercial development in Kapolei City. The project consisted of the development of approximately 6.5 acres of undeveloped land located adjacent to the Kapolei Shopping Center on Farrington Highway.

Work included the preparation of construction plans, specifications, and cost estimates for mass grading, drainage, water, and sewer facilities.

An NPDES permit for discharge of storm water associated with construction activity was also prepared.
